

Who says  
**HIV/AIDS**  
can't be stopped?

Researchers at Western's Schulich School of Medicine & Dentistry are one step closer to defeating HIV/AIDS. Their work has created a promising vaccine that may not only prevent HIV infection, but also deliver a cure for the tens of millions of people around the globe who are infected by the deadly virus.

**MAKE A  
DIFFERENCE**

Learn more about this ground-breaking vaccine, and how Western is shaping the future of health care, wellness and medical discovery.
